WORLD'S LARGEST PARK.

New York's "Wonderworld" a "Monster Amusement Resort."

New York, Nov. 24.—Work was begun this week on what is to be one of the largest amusement parks in the world. Its name will be "Wonderworld," and it will be situated on the south bank of the Harlem river, at 218th street.

Wonderworld will furnish the sort of recreation which New Yorkers and suburbanites have been unable to enjoy without going to Coney Island or Rockaway Beach. The total cost involved will be nearly \$2,000,000. Wonderworld will occupy 31 acres.

An "esplanade walk"—a kind of midway—will run through the middle of it. There are to be a German village, a Japanese village, a sixteenth century German castle and gaily colored pagodas. The people of the Bronx and suburban towns, such as Yonkers and New Rochelle, who would take over two hours to get to Coney Island, will be able to reach the new resort in 15 minutes.

Warm Places for the Homeless.

New York, Nov. 24.—The hospitable heaters of the big buildings along Broadway and in the side streets have already begun to receive their winter guests. Over the heaters, as a rule, is a series of ventilators covered with wire. The warm air rises through them to the street. It never happens that these warm bunkers are not occupied during the winter nights. Sometimes as many as a dozen homeless men sleep on them.

NO SEATS, NO FARES.

Railroads Must Provide Seats on Trains or Not Collect Fares.

A special from Grand Forks, N. D., says: At the forthcoming session of the legislature it is expected that several measures will be introduced in an effort to give the state improved railroad service.

Among these will be one copied after the laws of eastern states making a first-class seat one of the requirements for first-class tickets, and providing that no fare may be collected in case where seats are not provided.

In the past month or six weeks the passenger traffic out of North Dakota has been the greatest in the history of the state, and was made up largely of returning harvesters, who were unwilling to risk the dangers of beating their way home. Trains coming into Grand Forks have been loaded so heavily that stops of an hour have been made in order that conductors might take up tickets.

On the eastbound flyer two mornings ago 250 passengers were carried in two coaches, and it has been a common thing for trains from the west, carrying three coaches, to bring in from 500 to 800 passengers. This means that more than half, and in some instances two-thirds of the passengers have been required to stand up.

A law that would require seats or no fares might work a hardship on the railroads, but it is argued that it would result in improvements in the service that ought to come for the money paid for first-class tickets.

They are beauties, those nut brown stiff hats shown at Sullivan & Bond's.

WALLA WALLA SAYS DISCRIMINATION

FREIGHT RATES NOW
FAVOR PALOUSE POINTS.

Shippers of the Garden City Will Endeavor to Have the Rate Changed to Include Walla Walla—It is Alleged That Palouse Gets a Rate 6 Cents Per Bushel Less Than Walla Walla—Sharp Protest Will Be Made.

Trouble is coming to Walla Walla from every side. While that city is in a frenzy over the merchants' excursion train from Walla Walla to Pendleton news comes that the transcontinental lines have put into effect a wheat rate for Palouse points that, it is alleged, discriminates against Walla Walla shippers.

In speaking of the matter the Walla Walla Statesman of yesterday says:

"The Walla Walla Commercial Club has decided to make a vigorous protest against the alleged discrimination of the railroad companies in favor of the Palouse country and against Walla Walla."

"Under a new freight tariff, which recently went into effect on the transcontinental lines, the rate on wheat in carload lots from the Palouse country to eastern points was reduced to a figure that gives the shippers of that section a rate at least 6 cents per bushel less than the Walla Walla shippers."

"This the members of the club deem a gross discrimination, and at a meeting of the directors of the association held last night the subject was discussed at length. It was the unanimous opinion of the directors that a protest should be made to the officials of the company, and the committee on freights and transportation was instructed to take up the matter at once."
